

Ross Martin is proud to announce
(Orion Engineering Services VGL medal)

Pund scores Orion Engineering Services VGL medal
Which is to be filed as....
How come he only lost 1 bloody stroke with that score?

By Dennis Fuller

The skies cleared on command and the big shiny almost blazed above at Emerald Golf Club last Saturday. Bazz had a snip at the greens on Friday and again on Saturday because it is about the only machine on the course that still works!

(Orion Engineering Services VGL medal)

Ray Pund (17) matched the brightness from above with a staggering nett 72 to take out the June VGL Monthly Medal. This bloke is playing so well I tried to start disliking him but he stuffed that up by donating all the balls he has won back to the club or to the OFG ranks. Some people are real party poopers!! **(Orion Engineering Services VGL medal)**

He headed up the B Grade crown from an unlucky Andrew Cutting (17) who managed a really solid 66 to be the bridesmaid again. That makes 3 weeks in a row he has been second he must improve to get a win for the Sickamore Syndicate because it is patently obvious Travis and I can't cut the mustard!! **(Orion Engineering Services VGL medal)**

In A Grade, Ryan Aitken (12) was the king with 67 and in C Grade, the golfing patriarch, Dave Aitken (27) won again with 71. The legal team seem to be dominating and are doing much better under the control of The Bagman's wise leadership.

(Orion Engineering Services VGL medal)

Eddies Kloprogge managed 69 while Ken Hill and Mark Starick both played to their handicaps for 70. **(Orion Engineering Services VGL medal)**

Darryl White had the longest drive on the 1st and was nearest the pin on the 7th, Leigh Morison was nearest on the 4th, Kameron Geeves on the 12th, Starick the 13th, and Ryan Aitken pocketed the pro pin lolly on the 18th.

(Orion Engineering Services VGL medal)

Once again Nellie Bradshaw cleaned up in the ladies' event from a disappointed Benita Balfour who played well enough to win but not well enough to beat Bradshaw.

(Orion Engineering Services VGL medal)

Wednesday's Obscurely Fabricated Golf (OFG) was a stroke event with expanded holes, and it saw another win for Ray Pund with a net score of 54. Brian McCoy was the unlucky golfer in 2nd place with 59.

The handicap pennant team travelled to Werribee to play in the final. Unfortunately they did not win back to back premierships but performed very well. Dave Aitken continued his unbeaten run to win as did Peter Stevens. The other members, Ross Martin, Ryan Aitken, Dean Aitken, Steve Town, Kameron Geeves and Dean Shannon either lost narrowly or drew their games.

(Orion Engineering Services VGL medal)

Just got this from Pennant Captain, Dean Shannon, who has done a fabulous job organising the team and making sure that Dave Aitken keeps winning. Shame he does not have the same effect on the rest of the legal team ... AKA ...A, A, A and Schtick

Hi Dennis

Not if you've got the results from today's final but unfortunately we went down to Nepean.

David Aitken (ball match) 4&3 win

Dean Aitkin 3&1 loss

Steve Town 2&1 loss

Dean Shannon all square

Kameron Geeves 4&3 loss

Ryan Aitken all square

Peter Stevens 2&1 win

Ross Martin all square going up the last (was feeling good for the win)

Ross's game was called in when the contest had been decided.

Most of the boys played well but were just out played on the day.

Some of the scores maybe out by a hole as I didn't get it all confirmed.

Cheers

Dean

Next Saturday is the annual joined holes event where ten of the holes are joined in pairs as five single holes. It makes the 739m par seven 8th & 9th an interesting hole. Especially carving a way through a thick line of trees.

(Orion Engineering Services VGL medal) ... is that enough times Roscoe?

THE KLOPROGGE FILE:

Check out the photo that Whiteman took on Saturday of Eddie and Hank. I especially like the kind caption that Whiteman applies to the photo.

THE SCOTTY FILE:

Scotty drove on the 17th tee, hit a tree in front of him and the ball rebounded all the way back to the path near the 16th green. He had to hit his next shot over the tee and had his playing partners all doubled over with mirth and fear for their welfare. The question should be asked as

to whether he should shout three times for not getting past the red blocks, not getting past the white block and not getting past the blue blocks?

THE FERGIE FILE;

Fidel goes into dry dock tomorrow to get a new knee. I wonder whether his good lady wife would prefer to keep the knee and trade in the rest. We all wish him well and a speedy recovery.

A Grade:

R Aitken ... 67
M Satrick ... 70
K Hill ... 70
D Fuller ... 74
G Oldfield ... 75
R Martin ... 75
K Geeves ... 76
G White ... 82 and it wasn't even par!!

A Ecclestone ... 74
L Morison ... 75
S Town ... 76
C Whitlock ... 76
B Reynolds ... 76
P Clowes ... 77
Dean Aitken ... 81
B Balfour ... 85

B Grade

R Pund ... 62
A Cutting ... 66
E Klopogge ... 69 ... refer photo below!!!!
D White ... 71
S Courtney ... 71
H Adams ... 71 refer photo below!!!!

C Grade

Dave Aitken ... 71
D Jennings ... 74
B McCoy ... 75
M Johnson ... 75
K Ellis ... 79
I Scott ... 82
Neville Bradshaw ... 87

You have to put this on your golf report,
Whiteman - TWO OLD GAYS
