

Broc Reynolds bags medal

The cheeky young mongrel!!!

By Dennis Fuller

With the weather gods smiling on Emerald Golf Club last Saturday, members rocked up to vie for the Lighthouse Productions monthly medal. K-L (AKA Kevin Ellis) was there to make sure that the good name of Lighthouse Productions was not besmirched by a member's behaviour.

When all the cards were strewn over the table, young tyro, Broc Reynolds (22) wore the wicked grin of the winner when his nett 66 eclipsed all others. This gave him the B Grade gong as well.

A Grade was won by Ray Pund (12) with 69 and in C Grade, where good scoring seemed a problem, David Aitken (25) got the nod over Gary Kennaugh (25) on a count back when they both scored 73.

The list of those who did OK does not take up much paper to list. Top of these was Dave Jennings with 68, Stu Courtney 70 and Dennis Fuller, Ross Martin and Peter Clowes all had 71.

John Fisher was nearest the pin on the 4th, Peter Glasscock the 7th, Clowes the 12th, Jennings the 13th and Barry Cook scooped the pool on the pro pin 18th.

Brianna McCoy showed the rest of the ladies a clear set of heels when she won in a canter.

Wednesday's Obliterated and Obvious Golf (OFG), using OFG handicaps saw Kevin Ellis (29) play a blinder when he waltzed in with a whopping 49 stableford points to just fall over the line from Mick Petrie on 47, Jeffrey Marsh 43 followed by Dennis Fuller (12) and Geoff Whittaker both on 39.

The handicap pennant team hosted Yarrambat Golf club and came away with a very solid win which should get them to the finals.

Andrew Cutting won 7/5, Ryan Aitken down 2/1 ... played the arse with the rules (2 holes worth), Mark Starick won 1 up, Steve Town 1 down. Dean Shannon 8/6, Dean Aitken lost 2/1, **David Aitken won 9/8** and Broc Reynolds won 3/1.

Next Saturday as a prelude to Mothers' Day the following day there is a 2 man ambrose event where a large number of the combatants have promised to make their Mummies proud.

Did you hear?

- Barry rang today with all kinds of good news. His blood count is absolutely spot on....he has started keeping food down and to eat properly ... and Alex, despite others having said things differently a while ago, has offered Barry full time employment when he is well enough and for as long as he can!!!
- El Geubo (AKA John Fisher) goes in to the garage to have his neck operation next Friday and as I just said after I wished him luck.. I then wished him surgical competence.
- Whiteman played a shot on the 16th and was a little disappointed and said a word loud enough to be heard at Mt Dandenong. He then approached his bag with the club raised and ready to beat the living shit out of something. He changed his mind, put the club away and then ripped a beautiful uppercut into his bag. The bag did not seem to worry too much but Whiteman's knuckles lost a little skin. Best punch since the punch that knocked a horse over in Cat Ballou?
- Scotty arrived and found that his wife did not pack his bag properly and his shoes had not been cleaned and packed. Sir Jeffrey had his good pair that he wears on golf courses that are a little greener and drier than Royal Emerald. Scotty had to wear a couple of pairs of socks. Ian was complaining later that his feet got wet till Dave A advised him that he was not supposed to walk into the pond to collect his ball.
- Phil Rundle did set some kind of record by having 12 on the 2nd. I did ask how many balls he drowned and apparently that total was 0. Bloody good effort Phil especially when Ben and I played you and you parred the first few holes. Just moaning and feeling sorry for us.
- That the reason for the different grades is the putting? Averages: A Grade just over 31 ...B Grade 33 ...C Grade 34.5

Did you see?

- Fergie on the 13th hole raking and carting heaps of leaves so that things are good for us. Spent at least a couple of hours... so thanks Fergie!!
- An alien car was in Whiteman's spot. Apparently he arrived confident in the place he would park and there, lo and behold, was Sir Jeffrey's chariot.
- Some skid marks on the gravel that mysteriously stopped just behind Whiteman's parked vehicle.

Please note:

- There will be no handicapping list at the clubhouse because Whiteman's lap top ...his words and not mine... shit itself when he was calculating the handicaps. Please check on Golf Link and if you play with someone who does not sail on the ether, look their's up and tell them.
